

Rubber Stamps

Business stamps are essential to time-saving documentation. BCT has the tools to manufacture custom rubber stamps for a variety of purposes from addresses, approvals to notaries and company information. BCT ensures the best quality with efficient project turn around time. BCT can provide both self inking stamps and pre-inked stamps at a wholesale price to meet your client's needs. Self Inking Stamps

Self Inking Stamps have a few benefits that they utilize water based ink, offer trouble free stamping with a smooth transition onto the surface and most importantly are able to endure thousands of impressions. BCT offers several sizes of Self Inking Ideal stamps that last up to 25,000 impressions per machine.
