

Labels

Labels are the perfect way to send a message out to the world - especially when you're not there. For this reason, you want a label that appropriately represents you or your business. But getting quality custom labels from typical commercial printers can be a confusing, time consuming and costly experience. Fortunately, there's BCT. We take all the stickiness out of the process by making label ordering Fast. Easy. Friendly.

How to Order:

- Select label shape and size.
- Select label material.
- Select quantity in 1000s
- Submit colors and artwork (up to 3 Pantone colors at same price).

Our services are designed to make your experience enjoyable. No hidden fees or extra charges! Your colors, your graphics at one low price.

Orientation: First dimension given is the width of the roll. The second dimension is the length of the label.

Material: White gloss material will appear slightly shiny but is not good for writing on as it will smudge. White matte and red fluorescent will not smudge. Laminated labels are protected by a clear overlay making them scratch-resistant, weatherproof and suitable for outdoor use.

Adhesive: Permanent adhesive is standard on all labels except the square-cornered rectangles. These labels come standard with removable adhesive.

Colors: We've selected the most popular and common colors if you are not familiar with the Pantone Matching System. Pantone reference charts can be found online if needed.

Custom: If you want 4-color process or don't see exactly what you are looking for, please contact us to discuss your custom label needs.
